## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-9 and 11-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 7 and 17.

Specifically regarding claims 1, 7 and 17, Garverick et al. (6543286) teaches the state of the art of a spatial light modulator.

But, Garverick et al. fails to explicitly teach a combination of all the claimed features including each of the plurality of hinges is directly connected to the spacer support frame and to a micromirror plate, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
